

The Path to Building National Human Resources

Program Guide (Establishments)

About HRDF

HRDF's inception

The Human Resources Development Fund (HRDF) was established by Decision of the Council of Ministers on 29/04/1421H to support efforts to qualify and recruit the national workforce in the private and non-profit sectors

Our Vision

Building a sustainable national workforce in the Kingdom of Saudi Arabia.

Our Mission

Growth and development of national human resources through effective and high-impact initiatives delivered in partnership with key stakeholders of the labour market system.

Our Values:

- Accountability
- Teamwork
- Capability building
- Sustainable impact

Who is this guide for?

- Private Sector Enterprises.
- Non-Profit Sector Enterprises.
- Governmental and semi-governmental institutions and entities.

Objectives of HRDF:

HRDF's strategy is based on (3) main objectives:

Developing human resources that meet the demands of the labor market.

Increasing the efficiency of matching job supply and demand.

Providing employment sustainability to groups facing challenges entering or remaining in the labor market.

To achieve our strategic objectives:

The programs have been redesigned to become **(8) major programs** with products designed to meet the needs of individual beneficiaries and enterprises, in order to achieve a comprehensive beneficial experience. The programs include:

Our main programs

- Career Guidance and Counseling Program
- Training Support Program
- On-the-job Training Program
- E-Training Program
- Enablement Program
- Job Search Subsidy
- Job Matching Program
- Income Support

The HRDF also offers several initiatives and programs to support the training, employment and enablement of citizens and to support enterprises in all economic activities, sectors and occupations.

HADAF From The Human Resources Development Fund

Under this umbrella are the programs and products of the Human Resources Development Fund, which provide counseling, training, and empowerment services efficiently and effectively to increase the stability and development of the Saudi workforce.

Pillars

Counseling

Products that help target groups make good decisions regarding their educational and professional paths and support them with planning skills for their professional paths in line with their personal aspirations and labor market needs.

Training

Products to support the training and qualification of national cadres, increase their competitiveness and enhance their efficiency in the labor market, and contribute to the development of their knowledge and professional skills.

Enablement

Sustainable employment enablement products for groups facing challenges to enter or remain in the labor market in order to increase their level of participation, as well as initiatives provided by the HRDF to employers and entrepreneurs.

Programs and products provided to institutions and enterprises:

 Training	 Enablement
Graduate Development (Tamheer)	Employment Support
Cooperative Training	Children's Hospitality Support (Qurrah)
Professional Experience	Dialysis Support
Institutions for Strategic Partnerships	9I10ths
MAHARAT	
HADAF leadership	
E-Training	

Training Pillar

Graduate Development (Tamheer)

A product offered by the Human Resources Development Fund that aims to train male and female graduates with diplomas, bachelor's degrees and above in governmental, semi-governmental and private sector institutions and establishments, so that they can acquire the necessary experiences and skills to prepare them to participate in the labor market with the possibility of employing them.

Beneficiaries

- Governmental and semi-governmental institutions and privileged private sector enterprises.

Program Benefits

- Reducing the gap between an individual's qualifications and labor market skills.
- Providing graduates with practical and professional experience in line with market demands.
- Increasing employment opportunities by providing high-quality practical experience.
- A monthly reward of ﷲ 3,000 per month, provided by HRDF.

Graduate Development (Tamheer)

Support Mechanism

The Human Resources Development Fund (HRDF) contributes support to graduates of institutes and colleges with technical, health and administrative diplomas, and a bachelor's campaign with a bonus of ﷲ 3,000 per month, for a period of 3 to 6 months.

Eligibility Requirements

- Having an account on the HRDF website.
- The number of trainees for the graduate development product at the enterprise shall not exceed 10% of the total number of Saudi employees. Non-Saudi nationals in private sector enterprises, institutions, government entities and non-profit enterprises up to 100 trainees for the same period.
- The scope of the facility shall be (medium-green) and higher for private sector and non-profit enterprises.
- Enterprises should apply the criteria for accepting training opportunities as defined by the Fund.
- The enterprise's activity should be commensurate with the activities, sectors and occupations targeted by the Fund.
- The enterprise must not be in the Fund's "banned-list".

Cooperative Training

This product, offered by the Human Resources Development Fund, targets male and female students who have cooperative training as a graduation requirement, with the aim of providing them with practical and professional experience to improve their employability.

Target group

- Governmental and semi-governmental institutions and privileged private sector enterprises.

Product Objectives

1. Reduce the inherent gap between an individual's qualifications and the skills required.
2. Prepare and develop students with practical and professional experience according to the need of the labor market.

Cooperative Training

Support Mechanism

The Fund's contribution to the cooperative training product is digital empowerment using the platform provided by HRDF.

Eligibility Requirements

- Having an account on the HRDF website.
- The number of trainees for the cooperative training product in the establishment shall not exceed 10% of the total number of Saudi and non-Saudi employees in private sector enterprises, institutions, government agencies and non-profit enterprises.

Professional Experience

This product, offered by the Human Resources Development Fund, targets male and female students in secondary school, diploma programs, and bachelor's degrees. Its aim is to raise awareness of various professions and prepare them for the job market by providing year-round, on-the-job training, including summer breaks. This allows them to learn and acquire essential skills required by the job market, explore different specializations and professions, and understand the nature of related work in a real-world work environment. This, in turn, helps reduce the time they spend searching for employment after graduation.

Target group

- Governmental and semi-governmental institutions and privileged private sector enterprises.

Product Objectives

- Prepare and develop students with scientific and professional expertise in accordance with the needs of the labor market.
- To acquire the knowledge and skills required for the labor market to the students.
- Reduce students' skill gap before graduating and engaging in the labor market.
- Reduce their period of staying job seekers after graduation.

Professional Experience

Support Mechanism

The Fund's contribution to the cooperative training product is digital empowerment using the platform provided by HRDF.

Eligibility Requirements

- Having an account on the HRDF website.
- The number of trainees for the cooperative training product in the establishment shall not exceed 10% of the total number of Saudi and non-Saudi employees in private sector enterprises, institutions, government agencies and non-profit enterprises.

Job Matching

Job Matching

The program aims to facilitate the job harmonization process for Saudis and business owners by focusing on increasing employability and job sustainability, as well as achieving common interests by harmonizing job seekers and supporting the most difficult groups in employment and linking them to appropriate jobs to achieve high productivity and career sustainability that achieve satisfaction and reduce unemployment rates for all segments of society.

Program Objectives

- Provide a comprehensive experience and an improved proposed value for business owners and job seekers to ensure that all job advertisements in attendance channels are integrated with the online platform (JADARAT).
- Preparation of accurate files for enrolments in the National Unified Employment Platform (JADARAT) who are looking for jobs.
- Enabling employment with serious job seekers contained in the database through proactive communication with them.
- Improve the recruitment process by developing advanced and predictive analyses.

Target group

- Job seekers in a platform (murals)
- Business owners(public, semi-government, private and non-profit)

Program services

1. Job vacancy analysis at the unified national recruitment platform (JADARAT) to achieve functional harmonization and increase recruitment efficiency
2. Analysis of qualifications' data and inventory of those who are serious about job on an ongoing basis; To align supply with demand for jobs
3. Sharing candidates' data on the work of qualified persons with HRDF branch management and channels to achieve functional alignment according to vacancies
4. Share qualified data with the Fund's program management to take advantage of related program products to upgrade researchers' skills and prepare them for the labor market

▶ Unified National Employment Platform (JADARAT)

Introduction

The Unified National Employment Platform was established by Royal Decree No. 20-6-1442, which includes the directive to consolidate the various employment platforms into a single platform, to include civil service public sector, parastatal and private sector jobs and to cover the following objectives:

The platform targets several different categories of the work system:

Job Seekers

PRIVATE
SECTOR
JOB
SEEKERS

PUBLIC
SECTOR
JOB
SEEKERS

Employers

PRIVATE
EMPLOYERS

PUBLIC
EMPLOYERS

Added value and advantages For business owners

- **Provision of a variety of candidates:** employers can access a variety of suitable candidates to meet their job needs and facilitate the selection process for candidates according to "AI algorithms"
- **The database is documented in integration with (Ministry of Education - Social Insurance):** business owners can review candidates' data after being verified automatically through integration with government systems in documenting qualifications and experiences.
- **Functional alignment engine:** Using accurate functional alignment techniques allows employers to effectively select the candidates most suited to job requirements.
- **Increased recruitment efficiency:** Using artificial intelligence techniques, business owners can improve the efficiency of recruitment processes and reduce the time and resources used to search for suitable candidates.
- **Preparing job ads using the latest AI techniques:** proposing job description and skills and experiences required based on the job title.
- **Providing advanced analyses:** We provide advanced analyses that help employers understand labor market needs and employment trends and build effective strategies to meet those needs.
- **Continuous support and assistance:** We provide continuous support and assistance to business owners through a dedicated customer service team, to ensure an excellent experience and effectively solve all queries and problems.

Added value and advantages For Individuals

- **Unified National Job Site:** Our platform brings together jobs from all sectors and fields in one place.
- **Career Guidance:** The platform automatically offers personalized career suggestions that help individuals review careers according to their career path and know the skills required in the labor market and develop them with the latest adaptive techniques.
- **Advanced job alignment:** Using job alignment techniques and artificial intelligence, we provide accurate alignment between individuals' skills and jobs.
- **Continuous support and assistance:** We provide ongoing support and assistance to individuals through a dedicated customer service team, to ensure an excellent experience and effectively solve all queries and problems.
- **Auto-writing and CV improvement:** Using AI algorithms to automatically improve candidates' CV, making it more attractive to business owners.
- **Providing career opportunities for all regions:** A national platform enables users across the Kingdom to access job opportunities in different regions, increasing the likelihood of finding a suitable job regardless of a person's location.
- **Transparency and fairness in submission:** achieving adequacy, effectiveness, accuracy, transparency and fairness in the provision of employment.

Unified National Employment Platform "JADARAT"

The platform connects job seekers with opportunities in the public and private sectors through a seamless and comprehensive digital alignment that achieves effectiveness, accuracy and transparency in job creation on the link jadarat.sa
